REMOTE DISCOVERY 1-2-1'S

The start of the Hackathons. Spotlight your session and immerse in captivating conversations with fellow delegates to work with you on the plan. Secure commitment and transport them onto your exclusive hackathon platform, paving the way for a symphony of collaboration before, during and after the event. Cultivate an ardent following and value creation, co-creation journeys matter and you get the maximum engagement with the most relevant people

KEYNOTES

A small number of keynotes are curated with skilled communicators who can convey complex ideas in a clear and compelling manner. Insights, stories, and experiences that resonate with the audience's emotions and aspirations. A particular session not your bag? Then JUMP!

UNLEASH THE POWER OF HACKATHONS!

In the realm where delegates yearn to share their challenges rather than endure sales pitches, seize the opportunity to let the buyers have their say. With an immersive digital backbone our pre-event remote discovery meetings set the stage, hackathons take center during the event, and a dedicated hackathon platform ensures ongoing engagement post-event. Elevate your experience with maximum throughput!

HELLO OPENSOURCE.

Bid farewell to the mundane, siloed classroom-style conferences, and embrace the vibrant OPENSOURCE. As an attendee, sculpt the program dynamically, seize control, and cast your vote on the agenda. Intimate, inspiring, and brilliantly intelligent, this is where possibilities flourish!

FEEL THE PULSE, EVERYBODY JUMP!

Tired of the monotony of back-to-back keynotes? Enter the EVERYBODY JUMP! movement, where seamless transitions between sessions create a fluid flow of curated content on the go. Yearning for a change? Take the leap to another session or craft your bespoke gathering, inviting like minded delegates. Submit roundtable discussion content before or during the event and invite delegates at any time

IN-PERSON 1-2-1'S!

It's your time to sparkle! Individual perspectives take centre stage, delving into ideal solutions, troubleshooting, and exchanging needs. Gather groundbreaking ideas and catapult them back into the hackathon. Uncover bold viewpoints too daring for group discourse and let them illuminate the path forward.
